

## ONE APP, ALL YOUR EVENTS

Are you a company, organization, or venue that holds many events a year? EventEdge now offers the most flexible multi-event app on the market that gives you total control of all your events in one place. You can show/hide features, create new events, and manage all your information from one place. We focus on making a customized app that is flexible enough to adapt to be used at all events, from major conferences to specialized internal meetings. Find out if a multi-event app is the right solution for your organization - contact us today to find out more.

### INSTANTLY ADD/MANAGE NEW EVENTS

You can manage all your events from a single backend. In addition, organizations can invite only specific managers to manage certain events and make sure your app always reflect your latest slate of meetings.

### VARY FEATURES FROM EVENT TO EVENT

Our multi-event app is flexible enough to allow organizers to turn features on/off, rename sections, and change graphics instantly. Your app adapts to each of your events.

### SECURITY ON YOUR TERMS

You can choose which events to show in your app and which events are private and which are open. Control access to all your events and make sure your information is getting to the appropriate audience.

### BEST VALUE ON THE MARKET

Our goal is to make our multi-event app accessible to all organizations. After a low setup cost, pay only for the events you use.

#### EASY TO START

**Choose Your Master Features**

**Customize and Brand Your Master App**

**Submit and Release Your App**

**Customize and Manage Each Event**
